

MODULART

A unique storage system specifically designed to provide innovative solutions for storage of art collections, **ModulArt** by Montel is a concept based on a stand-alone structure consisting of 6 retractable panels providing a hanging surface of 576 sq.ft.

MONTEL
The Intelligent Use of Space

MODULART

FEATURES

With no need for rails or false floor the modular art concept of this space management breakthrough insures easy integration of additional **ModulArt** units. The ability to expand in 3 directions greatly adds to the flexibility for storage of growing collections.

ModulArt is designed to insure that installation and layout reconfiguration will be accomplished quickly and easily.

Side panels can be provided when additional storage surface is needed. For maximum storage needs it is possible to increase **ModulArt's** capacity by adding 5 additional sliding panels increasing storage capacity up to 1056 sq.ft.

A few accessories include decorative finishing panels, top platform and locking device to secure your valuable collection. **ModulArt's** remarkable features make it a perfect addition to Museums and Art Galleries.

To receive Montel's **ModulArt** comprehensive technical information package:
